

Pineville *Today*

What's Happening...

I hope everyone is enjoying the weather and outdoors now that it is officially Spring. Now that the weather is warming up citizens will be getting out more and enjoying our beautiful parks and greenway. It has been said before, but I like to remind everyone that Pineville currently has one of the best sections of the greenway. As you get out, please take a moment or two to appreciate what our Town has to offer.

With Spring, comes special events. One of the Town's annual events is Junk Week, scheduled for the week of April 25th. The Town is anticipating the opening of its new Town Hall, scheduled to open for its employees in June. Construction work is on schedule and we look forward to serving you from our new offices. With that update, we are also proud to have a new library being built on the first floor of our new Town Hall, scheduled to open early this Fall. The new library will make a great addition to our Town.

Plans are still ongoing with the design of a greenway connection and bridge from McCullough to Jack Hughes Park. We are beginning our annual budget meetings and will have a formalized budget to present to Council at our May Council meeting.

Thank you for being a part of our great community. You are what makes Pineville a special place to live, work, and enjoy. We are here to provide you great services and are looking forward to seeing you at our new location this summer.

JUNK WEEK April 25th - 29th

Our Public Works Department will ride through town to pick up any old unwanted items. This is not a service offered by our trash collection company; this is a service offered **FREE OF CHARGE** from the Town to its residents. Please take advantage of this once-a-year opportunity to get your junk removed. In order to keep this great opportunity going year after year, we ask that you kindly follow a few simple rules that have been put in place:

- Minor renovation, flooring and other construction debris is acceptable ONLY if it is a reasonable amount, metal or work posts, or planks do not exceed four feet in length, and all nails or other hazardous items removed or nailed down safely for pickup without injury.
- Absolutely no excrement, bodily fluids or other biohazardous material of any kind will be picked up.
- We can no longer pick up paint or petroleum products of any kind.
- Items must be taken to the curb for pickup; employees are not permitted to go into your house to remove items or move them for you. Additionally, we do not want to take Town trucks into our alleyways, so please take your items to the front of the house to be picked up safely and easily.
- Separate glass or other breakable items from any wood, metal, plastic or other products you put out at the curb.
- Town employees have the right to refuse pickup of items they deem unsafe or hazardous.

One final sweep of the Town will be made the following week to collect whatever was not collected during the week of pickup. As long as these rules are followed and common safety sense is used, this program will continue to run. We appreciate your cooperation.

MECKLENBURG COUNTY NEWS

WATER NEWS

Did you know that sediment is the #1 pollutant in Mecklenburg County? Sediment is loose sand, silt, clay, and other particles. When it rains, sediment can flow into storm drains which lead directly to our waterways.

Increased sediment in creeks causes waters to be very turbid, meaning muddy and unclear, which gives the water an orange/brown color. Unfortunately, it can destroy aquatic habitats and smother fish eggs and bottom dwelling organisms. Sediment can come from eroding stream banks and is sometimes seen running off of construction sites without proper erosion control measure and areas with loose dirt. It's important to CALL 311 to report if you see:

- Sediment running off a construction site
- muddy/orange creeks when it has not rained

If you would like to find other ways to keep our waterways clean, volunteer with us! Visit us at StormWater.CharMeck.org

Say goodbye to those long winter nights and say hello to the spring sunshine! It's time to "spring into health". Are you craving the outdoors, sunshine, warmth, and new growth? Well, it's time to get your body moving into a new season and promoting a

healthy spring. Check out our 5 tips to help you transition from winter to spring. Wake early to exercise - The mornings are warming up, and spring means the sun rises earlier each day. Revitalize your daily fruits and vegetables - Spring is a great season to add new fruits and vegetables to your diet. Say "yes" to a healthy breakfast. It's a solid foundation and great start for any day. For your body to perform at a high level, it's essential to stay hydrated. A glass of water can also be a good appetite suppressant and can help maintain a healthy weight. Proper sleeping habits help maintain a healthy weight - Strive to sleep 6-8 hours each night. Also, staying up late has been shown to increase the likelihood of overeating.
