**Town of Pineville  
Electric Rate Schedule  
Schedule 11  
Residential Service**

**AVAILABILITY**

This Schedule is available only to residential customers in residences, condominiums, mobile homes or individually-metered apartments which provide independent and permanent facilities complete for living, sleeping, eating, cooking and sanitation.

**TYPE OF SERVICE**

The Town will furnish 60 Hertz service through one meter, at one delivery point where available:

Single-phase, 120/240 volts; or three-phase, 208Y/120 volts; or other available voltages at the Town's option.

Motors in excess of 2 H.P., frequently started, or arranged for automatic control, must be of a type to take the minimum starting current and must be equipped with controlling devices approved by the Town.

Three-phase service will be supplied, if available. Where three-phase and single-phase service is supplied through the same meter, it will be billed on the rate below. Where three-phase service is supplied through a separate meter, it will be billed on the applicable Commercial Service Schedule.

**MONTHLY RATE**

	<u>Summer</u>	<u>Non-Summer</u>
Basic Facilities Charge	\$10.37	\$10.37
First 500 kWh	0.10353	0.10353
Next 500 kWh	0.11928	0.11928
All over 1,000 kWh	0.11597	0.10998

**DEFINITION OF SUMMER/NON-SUMMER**

Summer: Monthly billings for June through September.

Non-summer: Monthly billings for October through May.

**DETERMINATION OF ENERGY**

The kWh of energy shall be the difference between the current month's watt-hour meter reading and the previous month's watt-hour meter reading.

Effective on and after July 1, 2021.

**PAYMENT**

The Town of Pineville only allows 21 days to pay a bill. Service will be disconnected for non-payment on the first working day after the 21st. Payments may be (a) Mailed to P.O. Box 249, Pineville, N.C. 28134, (b) Paid at the Town Hall, or (c) Placed in the drop box.

**SALES TAX**

Any applicable North Carolina state or local sales tax will be added to the customer's total charges for a month, determined in accordance with the above electric rates.

Effective on and after July 1, 2021.

**Town of Pineville**  
**Electric Rate Schedule**  
**Schedule 12**  
**Residential Service- All Electric**

**AVAILABILITY**

This Schedule is available only to residential Customers in residences, condominiums, mobile homes or individually-metered apartments which provide independent and permanent facilities complete for living, sleeping, eating, cooking and sanitation, in addition, all energy required for all water heating, cooking, clothes drying, and environmental space conditioning must be supplied electrically, and all electric energy used in such dwelling must be recorded through a single meter.

To qualify for service under this Schedule, the environmental space conditioning system and a separate electric water heater must be permanently installed in accordance with sound engineering practices and the manufacturer's recommendations, and both shall meet the following conditions.

**Electric Space Heating:**

1. Room-type systems shall be controlled by individual room thermostats.
2. Heat pumps shall be controlled by two-stage heating thermostats, the first stage controlling compressor operation and the second stage controlling all auxiliary resistance heaters. Auxiliary heaters shall be limited to 48 amps (11.5 kW at 240 volts) each and shall be switched so that the energizing of each successive heater is controlled by a separate adjustable outdoor thermostat. A manual switch for by-pass of the first stage and the interlock of the second stage of the heating thermostat will be permitted.
3. Excess heating capacity (15% more than total calculated heat losses) may be disconnected at option of the Town.
4. The residence shall be insulated so that total heat losses (as calculated by the current edition of ASHRAE Guide) shall not exceed 0.158 watts (0.539 BTUH) per sq. ft. of net heated area per degree F. temperature differential. Duct or pipe losses shall be included in the computation of total heat losses.

**Electric Domestic Water Heater:**

1. Water heaters shall be of the automatic insulated storage type, of not less than 30 gallon capacity, and may be equipped with only a lower element or with a lower element and an upper element.
2. Heaters having only a lower element may have wattage up to but not exceeding the specific wattage as shown below for various tank capacities.

Tank Capacity in Gallons	Maximum Single Element Wattage
30 -39	3,500
40 - 49	4,500
50 and Larger	5,500

Effective on and after July 1, 2021.

3. Heaters having both a lower and an upper element may have wattage in each element up to but not exceeding the specific wattage set forth in the table above for single element heaters, but they must have interlocking thermostats to prevent simultaneous operation of the two elements; however, if the sum of the wattage of the two elements does not exceed the specific wattage for single element heaters set forth in the table above, no interlocking device will be required.
4. Heaters of 120 gallons capacity and larger shall be subject to special approval.

**TYPE OF SERVICE**

The Town will furnish 60 Hertz service through one meter, at one delivery point, at one of the following approximate voltages where available:

Single phase, 120/240 volts; or three phase, 208Y/120 volts; or other available voltages at the Town's option.

Motors in excess of 2 H.P., frequently started, or arranged for automatic control, must be of a type to take the minimum starting current and must be equipped with controlling devices approved by the Town.

Three phase service will be supplied, if available. Where three phase and single phase service is supplied through the same meter, it will be billed on the rate below. Where three phase service is supplied through a separate meter, it will be billed on the applicable General Service Schedule.

**MONTHLY RATE**

	<u>Summer</u>	<u>Non-Summer</u>
Basic Facilities Charge	\$10.37	\$10.37
First 500 kWh	0.10353	0.10353
Next 500 kWh	0.11168	0.11168
All over 1,000 kWh	0.11026	0.09189

**DEFINITION OF SUMMER/NON-SUMMER**

Summer: Monthly billings for June through September.

Non-summer: Monthly billing for October through May.

**DETERMINATION OF ENERGY**

The kWh of energy shall be the difference between the current month's watt-hour meter reading and the previous month's watt-hour meter reading.

**PAYMENT**

The Town of Pineville only allows 21 days to pay a bill. Service will be disconnected for non-payment on the first working day after the 21st. Payments may be (a) Mailed to P.O. Box 249, Pineville, N.C. 28134, (b) Paid at the Town Hall, or (c) Placed in the drop box.

Effective on and after July 1, 2021.

**SALES TAX**

Any applicable North Carolina state or local sales tax will be added to the customer's total charges for a month, determined in accordance with the above electric rates.

Effective on and after July 1, 2021.

**Town of Pineville  
Electric Rate Schedule  
Schedule 13  
Small Commercial Service**

**AVAILABILITY**

This Schedule is available to the non-residential customer with monthly demand less than 100 kW.

Service under this Schedule shall be used solely by the contracting Customer in a single enterprise, located entirely on a single site.

This Schedule is not available for auxiliary or breakdown service and power delivered under this schedule shall not be used for resale or exchange or in parallel with other electric power, or as a substitute for power contracted for or which may be contracted for, under any other schedule of the Town, except at the option of the Town, under special terms and conditions expressed in writing in a contract with the Customer.

The obligations of the Town in regard to supplying power are dependent upon its securing and retaining all necessary rights-of-way, privileges, franchises and permits for the delivery of such power. The Town shall not be liable to any Customer or applicant for power in the event it is delayed in or is prevented from furnishing the power by its failure to secure and retain such rights-of-way, rights, privileges, franchises and permits.

**TYPE OF SERVICE**

The Town will furnish 60 Hertz service through one meter, at one delivery point, at one of the following approximate voltages where available:

Single-phase, 120/240 volts; or

3 phase, 208Y/120 volts, 480Y/277 volts; or

3 phase, 3 wire, 204, 480 volts, or

3 phase voltages other than the foregoing, but only at the Town's option, and provided that the size of the Customer's contract warrants a substation solely to serve that Customer, and further provided that the Customer furnish suitable outdoor space on the premises to accommodate a ground-type transformer installation, or substation, or a transformer vault built in accordance with the City's specifications.

The type of service supplied will depend upon the voltage available. Prospective customers should determine the available voltage by contacting the Town before purchasing equipment.

Motors less than 5 H.P. may be single-phase. All motors of more than 5 H.P. must be equipped with starting compensators and all motors of more than 25 H.P. must be the slip ring type except that the Town reserves the right, when in its opinion the installation would not be detrimental to the service of the Town, to permit other types of motors.

Effective on and after July 1, 2021.

**MONTHLY RATE**

Minimum Demand: 30 kW	<u>Summer</u>	<u>Non-Summer</u>
I. Basic Facilities Charge	\$17.17	\$17.17
II. Demand Charge:		
First 30 kW	No Charge	No Charge
All kW Over 30 kW	\$8.97	\$6.09
III. Energy Charge:		
For the First 100 kWh per kW Billing Demand per Month		
First 3,000 kWh	0.15015	0.15015
All Over 3,000 kWh	0.07303	0.07303
For the Next 200 kWh per kW Billing Demand per Month		
All kWh	0.09477	0.09477
For All Over 300 kWh per kW Billing Demand per Month		
All kWh	0.07541	0.07541

**DEFINITION OF SUMMER/NON-SUMMER**

Summer: Monthly billings for June through September.

Non-summer: Monthly billing for October through May.

**DEFINITION OF "MONTH"**

The term "month" as used in this Schedule means the period intervening between meter readings for the purposes of monthly billing. Readings are taken once a month at intervals of approximately thirty days.

**DETERMINATION OF BILLING DEMAND**

At its option, the Town may install a demand meter to measure demand for any customer served under this schedule.

The demand for billing purposes each month shall be the greater of the maximum integrated 30-minute demand measured during the month, or 30 kilowatts.

**DETERMINATION OF ENERGY**

The kWh of energy shall be the difference between the current month's watt-hour meter reading and the previous month's watt-hour meter reading.

Effective on and after July 1, 2021.

**POWER FACTOR CORRECTION**

When the average monthly power factor of the Customer's power requirements is less than 85 percent, the Town may correct the integrated demand in kilowatts for that month by multiplying by 85 percent and dividing the resultant value by the average power factor in percent for that month.

**PAYMENT**

The Town of Pineville only allows 21 days to pay a bill. Service will be disconnected for non-payment on the first working day after the 21st. Payments may be (a) Mailed to P.O. Box 249, Pineville, N.C. 28134, (b) Paid at the Town Hall, or (c) Placed in the drop box.

**SALES TAX**

Any applicable North Carolina state or local sales tax will be added to the customer's total charges for a month, determined in accordance with the above electric rates.

Effective on and after July 1, 2021.

**Town of Pineville**  
**Electric Rate Schedule**  
**Schedule 14**  
**Medium Commercial Service**

**AVAILABILITY**

This Schedule is available to the non-residential customer whose monthly demand equals or exceeds 100 kW in any three months of the preceding twelve months but is less than 250 kW.

Service under this Schedule shall be used solely by the contracting Customer in a single enterprise, located entirely on a single site.

This Schedule is not available for auxiliary or breakdown service and power delivered under this schedule shall not be used for resale or exchange or in parallel with other electric power, or as a substitute for power contracted for or which may be contracted for, under any other schedule of the Town, except at the option of the Town, under special terms and conditions expressed in writing in a contract with the Customer.

The obligations of the Town in regard to supplying power are dependent upon its securing and retaining all necessary rights-of-way, privileges, franchises and permits for the delivery of such power, and the Town shall not be liable to any Customer or applicant for power in the event it is delayed in or is prevented from furnishing the power by its failure to secure and retain such rights-of-way, rights, privileges, franchises and permits.

**TYPE OF SERVICE**

Service under this Schedule shall be used solely by the contracting Customer in a single enterprise, located entirely on a single site.

This Schedule is not available for auxiliary or breakdown service and power delivered under this schedule shall not be used for resale or exchange or in parallel with other electric power, or as a substitute for power contracted for or which may be contracted for, under any other schedule of the Town, except at the option of the Town, under special terms and conditions expressed in writing with the contract with the Customer.

The obligations of the Town in regard to supplying power are dependent upon its securing and retaining all necessary rights-of-way, privileges, franchises and permits for the delivery of such power, and the Town shall not be liable to any Customer or applicant for power in the event it is delayed in or is prevented from furnishing the power by its failure to secure and retain such rights-of-way, rights, privileges, franchises and permits.

**TYPE OF SERVICE**

The Town will furnish 60 Hertz service through one meter, at one delivery point, at one of the following approximate voltages where available"

Single-phase, 120/240 volts; or

3 phase, 208Y/120 volts, 480Y/277 volts; or

3 phase, 3 wire, 204, 480 volts, or

3 phase voltages other than the foregoing, but only at the Town's option, and provided that the size of the Customer's contract warrants a substation solely to serve that Customer, and further provided that the Customer furnish suitable outdoor space on the premises to accommodate a ground-type transformer installation, or substation, or a transformer vault built in accordance with the City's specifications.

The type of service supplied will depend upon the voltage available. Prospective customers should determine the available voltage by contacting the Town before purchasing equipment.

Motors less than 5 H.P. may be single-phase. All motors of more than 5 H.P. must be equipped with starting compensators and all motors of more than 25 H.P. must be the slip ring type except that the Town reserves the right, when in its opinion the installation would not be detrimental to the service of the Town, to permit other types of motors.

Effective on and after July 1, 2021.

**MONTHLY RATE**

Minimum Demand: 30 kW	<u>Summer</u>	<u>Non-Summer</u>
Minimum Bill	\$66.30	\$66.30
I. Basic Facilities Charge	\$21.49	\$21.49
II. Demand Charge:		
All kW	\$8.97	\$6.09
III. Energy Charge:		
For the First 100 kWh per kW Billing Demand per Month All kWh	\$0.07070	\$0.07070
For the Next 200 kWh per kW Billing Demand per Month All kWh	\$0.07062	\$0.07062
For All Over 300 kWh per kW Billing Demand per Month All kWh	\$0.07022	\$0.07022

**DEFINITION OF SUMMER/NON-SUMMER**

Summer: Monthly billings for June through September.

Non-summer: Monthly billing for October through May.

**DEFINITION OF "MONTH"**

The term "month" as used in this Schedule means the period intervening between meter readings for the purposes of monthly billing. Readings are taken once a month at intervals of approximately thirty days.

**DETERMINATION OF BILLING DEMAND**

At its option, the Town may install a demand meter to measure demand for any customer served under this schedule.

The demand for billing purposes each month shall be the greater of the maximum integrated 30-minute demand measured during the month, or 30 kilowatts.

**DETERMINATION OF ENERGY**

The kWh of energy shall be the difference between the current month's watt-hour meter reading and the previous month's watt-hour meter reading.

**MINIMUM BILL**

The minimum bill shall \$66.30.

**POWER FACTOR CORRECTION**

When the average monthly power factor of the Customer's power requirements is less than 85 percent, the Town may correct the integrated demand in kilowatts for that month by multiplying by 85 percent and dividing the resultant value by the average power factor in percent for that month.

Effective on and after July 1, 2021.

**Town of Pineville  
Electric Rate Schedule  
Schedule 18  
Outdoor Lighting Service**

**AVAILABILITY**

This Schedule is available to the individual Customer at locations on the Town's distribution system.

**MONTHLY RATE**

**(A) Bracket Mounted Lights**

	Existing Pole	New Pole (35 ft.)	Underground Service*
175W Mercury Vapor (MV)	\$8.94	\$17.76	\$22.06
100W High Pressure Sodium Vapor (HPSV)	\$11.00	\$21.32	\$25.40
250W Mercury Vapor (MV)	\$15.47	\$27.23	\$30.93
250W High Pressure Sodium Vapor (HPSV)	\$20.00	\$31.77	\$35.17
400W High Pressure Sodium Vapor (HPSV)	\$21.54	\$33.32	\$36.61

\* Underground service is available for lights within 150 feet from service pole. For distances exceeding 150 feet, a charge of \$0.0884 for each additional 10 feet will be applied.

Service using overhead conductors is not available in any area designated by the Town as underground distribution area, not in any area, location, or premises being served from an underground source.

**(B) Other Lights**

Decorative and non-standard lights can be installed upon request, at the Town's option, at the rate in (A) above plus an extra monthly charge equal to 1.7 % of the estimated difference in stalled cost between the light and structure requested and the equivalent light and wood pole in (A) above.

**PAYMENT**

The Town of Pineville only allows 21 days to pay a bill. Service will be disconnected for non-payment on the first working day after the 21st. Payments may be (a) Mailed to P.O. Box 249, Pineville, N.C. 28134, (b) Paid at the Town Hall, or (c) Placed in the drop box.

**SALES TAX**

Any applicable North Carolina state or local sales tax will be added to the customer's total charges for a month, determined in accordance with the above electric rates.

Effective on and after July 1, 2021.

**Town of Pineville  
Electric Rate Schedule  
Schedule LM  
Load Management Rider**

**AVAILABILITY**

This rider is available to electrical service used by a non-residential customer whose monthly demand, actual or estimated, exceeds 500 kW at least three (3) months of the year. The availability of credits under this Rider is contingent upon the customer's load reduction resulting in a corresponding reduction in the Town's billing demand from North Carolina Municipal Power Agency Number 1. Monthly credits are applicable for calendar billing months June through September (summer months). Each customer served under this rider shall demonstrate an ability to reduce a minimum of 10 percent of their peak demand for at least two of the four applicable summer months to maintain eligibility.

**MONTHLY CREDIT**

The Customer will receive a Monthly Credit of \$9.00 per kW of demand reduction as defined below.

**DETERMINATION OF DEMAND FOR CREDIT**

The kW Demand for Credit will be determined by the Town and shall be equal to the difference between the customer's average integrated clock hour kW demands during the On-Peak Period of the Peak Management Day for the billing month and the customer's Estimated Peak. One or both of the following two methods, as determined applicable by the Town, will be used for the calculation of Estimated Peak:

1. If the customer initiates load reduction strategies each month during the Town's Peak Management Periods, the Estimated Peak shall be the clock hour demands occurring two hours prior to the On-Peak Period of the Peak Management Day.

OR

2. If the customer elects to make permanent shifts in operating hours to avoid Peak Management Periods, the Estimated Peak shall be determined by the Town from historical recorded demand during the On-Peak Period of the Peak Management Day. The Town will determine the amount of the kW demand reduced for each month of the year.

**On-Peak Periods**

On-peak periods are non-holiday weekdays during the following times:

June-September	2pm – 6pm
December-February	7am – 9am
All other months	7am – 9am and 2pm – 6pm

**Peak Management Days**

Peak Management Days are those days on which NCMPA 1 notifies its Participants to activate their peak management programs during On-Peak periods. The Peak Management Day used for in calculating the credit above shall correspond to the one Peak Management Day used by NCMPA 1 for wholesale billing purposes.

Effective on and after July 1, 2021.

Holidays

The following days of each calendar year are considered holidays: New Years Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, the Friday following Thanksgiving Day, and Christmas Day. In the event that any of the foregoing Holidays falls on a Saturday, the preceding Friday shall be deemed to be the Holiday. In the event any of the foregoing Holidays falls on a Sunday, the following Monday shall be deemed to be the Holiday.

The Estimated Peak shall be determined solely and exclusively by the Town. If in the Town's opinion the customer has manipulated its kW load to create a Demand for Credit while no reductions were actually achieved, the customer will receive no credit for that month. If the customer continues to give the appearance of manipulating its load to exaggerate the Demand for Credit, the Town can terminate service under this rider at any time.

**NOTIFICATION BY TOWN**

The Town will use diligent efforts to predict Peak Management Days and provide advance notice to the Customer. However, the Town is not able to guarantee an accurate prediction, or that advance notice will be provided. Notification by the Town will be provided to the Customer by direct telephone communications or automatic signal, as mutually agreed. The Customer will hold the Town harmless in connection with its response to notification. Information on the Town's experience in predicting Peak Management Days is available from the Town.

The Customer assumes responsibility for and shall indemnify, defend, and serve the Town harmless against all liability, costs, and expenses for injury, including personal injury or property damage to Customer and its employees on account of the use of this rider on the Customer's side of the meter, delivery point, or service point.

Effective on and after July 1, 2021.
